

Python Primer – Writing Your First Script

Course Length: 8 hrs
ArcGIS Version: 10.x

(Previously known as *Python for ArcGIS – An Introduction*)

Overview

Tailored to the non-programmer, this course includes a series of short lecture presentations and hands-on “try its” to accomplish a worthwhile task. The task is to write a log file of broken links in a map document, run as a tool from ArcToolbox.

Audience

Attendees should be familiar with the basic use of ArcGIS, including the topics covered in Esri I, II, and III classes — or the TeachMeGIS Fundamentals and Intermediate classes — and should also be familiar with geoprocessing.

Format

In-person instruction with hands-on practice. This course is primarily taught online, with a live instructor.
